

## **PRESS RELEASE**

10/10/2022

# **AT THE PARIS MOTOR SHOW, MOBILIZE IS TRANSFORMING MOBILITY AND FACILITATING ACCESS TO ENERGY**

Paris Motor Show, 17 to 23 October 2022, Hall 6

**#wearemobilizers**

At the Paris Motor Show, Mobilize is featuring its solutions to demonstrate concrete progress towards sustainable, accessible and affordable mobility:

- **Mobilize Duo**, an all-electric, connected quadricycle that seats two and suits everyone, revealing its playful and functional interior.
- **Mobilize Driver Solutions**, the service offering dedicated to taxi and ride-hailing professionals, around the Mobilize Limo all-electric sedan.
- **Mobilize Fast Charge**, a network of ultrafast charging stations near motorways.
- **Mobilize PowerBox**, a bidirectional charging point developed with Software République.
- **Two glimpses into the future: Solo Concept**, an original approach to mobility applied to travel in cities, and **Ileo Concept**, a new way of seeing energy.

*“At the Paris Motor Show, we are keen to show that it is possible to change the way we think about mobility; that there are down-to-earth, clever solutions that fit everyone’s needs. Mobilize is paving the way for large-scale transformation, with the stated intention of opening the door for as many people as possible to enjoy sustainable, accessible and affordable mobility,”* states **Clotilde Delbos**, CEO, Mobilize.

**Mobilize Duo**, an all-electric, compact, connected quadricycle that seats two and suits everyone

Mobilize Duo is designed for carsharing but is also available to private customers on subscription and comes with a wide array of services. Duo offers a fun, light-filled and functional interior.

It has two padded seats in tandem, and a **dashboard** that looks a lot like a boombox and houses the instrument screen, the gearbox lever, a speaker and a smartphone holder.

The steering wheel contains an **airbag**, which is rare in this type of vehicle.

### **Mobilize Driver Solutions, the service offering dedicated to taxi and ride-hailing professionals, around the Mobilize Limo all-electric sedan**

Mobilize Driver Solutions combines Limo, a reliable work tool that is pleasant to drive, with a full array of services designed to make life easier for drivers, operators and their customers. Mobilize Driver Solutions is up and running in Madrid and will be available in Paris by the end of 2022.

### **Mobilize Fast Charge, a network of ultrafast charging stations near motorways**

Mobilize will roll out a network of 200 ultrafast charging stations in Europe, with Renault dealerships. They will be less than 5 minutes from motorways, open 24/7 and welcome all electric vehicle drivers to quiet, comfortable and safe rest and service area.

### **Mobilize PowerBox, a connected and secure bidirectional charging point for electric vehicles**

This charging point developed by Software République (Orange, Renault Group, STMicroelectronics and Thales) will support smart grid management to address growth in the number of electric vehicles.

### **Mobilize Solo Concept and Ileo Concept: new angles on mobility and access to energy**

- **Solo Concept** is an original approach to mobility involving low-speed travel in cities, in semi-seated position and safe within the vehicle's enveloping body.
- **Ileo Concept** represents Mobilize's vision to bring energy to cities, with modular, multiservice totems.

**About Mobilize**

Mobilize, the brand of Renault Group dedicated to new mobility, offers a wide range of services around the vehicle thanks to an integrated technological platform: financing, insurance, payments, fleet management, energy, maintenance and refurbishing. Built around open ecosystems, Mobilize encourages a sustainable energy transition, in line with Renault Group's goal of achieving carbon neutrality in Europe and its ambition to develop value from the circular economy.
