

PRESS RELEASE

16/11/2022

RENAULT GROUP SUPPORTS THE ECOLOGICAL TRANSITION IN COMMUNITIES WITH SPECIFIC VEHICLES AND SERVICES

Paris Expo - Porte de Versailles

22-24 November 2022 – Hall 3, stand B34

Renault Group will be at the French trade fair for mayors and local communities to present its full range of services and solutions for French communities from Renault Pro+, Mobilize and HYVIA.

- Renault Pro+, an expert network for professional customers, will showcase its choice of vehicles and services for communities.
- Mobilize will present its turnkey and tailored mobility and energy solutions, and its trailblazing data-based services.
- HYVIA will feature Master City Bus H2-TECH, Europe's first hydrogen urban minibus, which will be made in France and on roads by mid- 2023.

Talks are also scheduled:

 **22 November (09:30-10:15 am / Infrastructure and Mobility Atmosphere):** Harnessing data in communities; Mobilize's solutions for optimisation, upgrades, facilitation and support. By Nathalie André, data business and new services director at **Mobilize**, Shabnam Khosravi, product director at **Mobilize** and Yann Goyat, chairman of **Logiroad**

 **22 November (12:00-12:30 pm / Orange stand, G48, Hall 4):** Mobility and its central role in communities. **Software République** vision by Sébastien Capelle, director of mobilities - smart cities at **Orange**, and Frédéric Angeli, director of Software République mobility programme at **Renault Group**

 **24 November (3:30-4:15 pm / Infrastructure and Mobility Atmosphere):** Growth in electric vehicles and the challenges it poses for local authorities; shedding light on charging solutions and uses. By Nicolas Schottey, CEO of **Mobilize Power Solutions**

Renault Pro+: the specialist network for professionals and communities

Renault Pro+ will present its choice of offers and vehicles for communities. This specialist network is meeting local authorities' needs with converted vans providing fittings and accessories suited to each requirement.

The possibilities that Renault Pro+ will feature at the stand:

- Traffic Van E-TECH
- Kangoo Van E-TECH converted into a tipper pick-up
- Kangoo E-TECH VP

The services offered are mainly aimed at guaranteeing their mobility, including checks within the hour, extended workshop opening hours and courtesy vehicles for professional use.

The Renault Pro+ network is present throughout France, with more than 110 certified sites, to guarantee local authorities quality maintenance and repair operations as close as possible to their areas.

Mobilize: turnkey and tailored solutions for cities, regions and people

- **Easing congestion, reducing pollution and moving back into public areas; enabling mobility in rural and other scarcely populated areas.**
 - With its station-based and free-floating car-sharing services – Mobilize Share and Zity by Mobilize –, Mobilize has an answer for every need in every city, however big or small.
 - Duo, Mobilize's compact electric quadricycle, will be on show at the stand, and be available for car-sharing operators, businesses and communities that want a shared fleet, or a less carbon-intensive one, by end-2023.
 - Also by end-2023, Mobilize and its partners will offer urban logistics professionals a choice of eco-responsible solutions to deliver goods or provide services in cities (a wide range of vehicles on leases or subscriptions).
- **Encouraging electric mobility and facilitating access to charging solutions.**
 - The Smart EV Charging Places service analyses an area and its electric vehicle users' habits to map out the best strategy to set up charging points.
 - Mobilize Power Solutions, a specialist in tailored charging solutions for electric and hybrid vehicles, advises authorities and helps them fine-tune master plans for charging infrastructure.
- **Anticipating and/or prioritising road revamps.**

With its partner Logiroad, Mobilize provides two services to help towns and cities lower maintenance costs and improve road safety:

 - Smart Road Monitoring, to assess road quality in order to optimise refurbishment work.
 - Safety Road, to identify accident-prone spots in order to prioritise safety upgrades and assess subsequent impact.

HYVIA: Master City Bus H2-TECH, Europe's first hydrogen urban minibus

- This zero-emissions urban minibus can carry up to 15 people about 300 km and takes 5 minutes to charge.
- It will be made in France and on roads by mid-2023, and has already been listed in France's leading public procurement platform (UGAP).
- The distribution network for Master City Bus H2-TECH is coming together throughout Europe, with partners including PVI (France), MELLOR (Sweden, Norway and Finland), TRIBUS (Germany, the Netherlands, Denmark, Belgium and Luxembourg) and QIBUS (Italy).
- Its first customers to run pilot programmes include RATP Dev, a prominent passenger transport player in Europe, B.E. GREEN, a pioneer for zero-emissions bus leasing in France, MILLA, which is leading the way for autonomous buses in France, and STROOMLIJN, a public transport specialist in the Netherlands.

About Renault Group

Renault Group is at the forefront of a mobility that is reinventing itself. Strengthened by its alliance with Nissan and Mitsubishi Motors, and its unique expertise in electrification, Renault Group comprises 4 complementary brands - Renault, Dacia, Alpine and Mobilize - offering sustainable and innovative mobility solutions to its customers. Established in more than 130 countries, the Group has sold 2.7 million vehicles in 2021. It employs nearly 111,000 people who embody its Purpose every day, so that mobility brings people closer. Ready to pursue challenges both on the road and in competition, Renault Group is committed to an ambitious transformation that will generate value. This is centred on the development of new technologies and services, and a new range of even more competitive, balanced and electrified vehicles. In line with environmental challenges, the Group's ambition is to achieve carbon neutrality in Europe by 2040.
